ArtezaTM

Morocco, Spain and Portugal have been centers of tile artistry for centuries. Arteza takes inspiration from these countries, and the echoes of the common ceramic culture they still share. Traditional patterns take on new life through artisans who craft each piece by hand, resulting in tiles that are a one of kind expression of the art form.

Variation, Usage & Technical Information

Variation

Arteza tiles are made entirely by hand in Morocco and each tile will be different from the next. Please expect the following characteristics which are inherent in authentic handmade tiles from Morocco.

- Chips off the surface of the glaze exposing the clay beneath
- Imperfections on the tile face
- Divots and marks in the surface of the tile
- Glazed over chips on the tile edges

Variation between samples and tiles received is possible, as handmade techniques of glazing make shade and color variation an inherent part of the product. Samples received before shipments should be considered indicative of color only. The manufacturer will not honor any claims made for these characteristics listed above if claimed as defects.

Pools, Spas & Fountains		
Arteza tiles do not meet US standards for use in pools, spas or other areas where it will be regularly submerged in water; and we do not recommend Arteza for these applications.		
Important Sealing Information		
Natural Terracotta tiles must be sealed before grouting. Occasional re-sealing may be needed, depending on where tile is installed.
